SUMMARY

Full-Stack Sofware Engineer with 2+ years of experience in .NET, Node.js, React, and SQL/MongoDB . Skilled in designing and deliveringscalable, reliable, anduser-centricapplications . Strong background in backend engineeringandcross-functionalcollaboration. Experienced mentor for50+students , fostering growth in sofware development and best practices. Proven ability toleadprojects and deliver impactful solutions in both academic and professional settings.

EDUCATION

SouthValleyUniversity Sep2021–Jun2025

BachelorofComputerScienceandInformationTechnology *Qena,Egypt*

TECHNICALSKILLS

ProgrammingLanguages: C#, JavaScript, TypeScript, Python, C++, HTML5, CSS3.
Frontend: React.js, Redux Toolkit, Tailwind CSS, Bootstrap.
Backend: ASP.NET Core, Node.js, Express.js, RESTful APIs, Authentication, Server-side Development.
Databases: SQL Server, MongoDB, MySQL; Database Design, Query Optimization.
Tools: Git, GitHub, VS Code, Visual Studio, Postman, Chrome DevTools, Figma.
Cloud&Deployment: Docker, Vercel, Netlify, Performance Optimization.
Methodologies: Agile, Code Review, Team Leadership.

PROFESSIONALEXPERIENCE

DandaraAl-Ebdaa Jan2024–Present

SofwareEngineer *Qena,Egypt*

- Developed and maintained multiple scalable web applications using .NET, Node.js, React, and MongoDB/MySQL, serving 100+ active users.
- Built and optimized backend services and RESTful APIs, improving performance and reliability across platforms.
- Collaborated with cross-functional teams to deliver features and ensure seamless integration between frontend and backend.

ArabAfricanCenter Mar2025–May2025

.NET, OOP, andSQLInstructor *Qena,Egypt*

- Delivered structured training sessions on .NET , OOP, and SQL, leading to a 35% improvement in student coding profciency.
- Guided students through hands-on projects, improving their coding profciency and practical skills in sofware development.

CairoCode Jul2024–Sep2024

PythonandProblem-SolvingInstructor

- Boosted test scores by 40% and improved student satisfaction by 20%.
- Conducted problem-solving workshops, raising success rates in exercises by 25%.
- Facilitated projects and analytical tasks, enhancing problem-solving capabilities by 25% and improving assessment performance by 15%.
- Developed interactive resources, raising student participation by 30% and satisfaction scores by 20%.

KEYPROJECTS

Tradof–TranslationProjectManagementPlatform |*React.js, Node.js, .NET, Flutter*

- Backend Developer in an 8-member team; built a translation platform with real-time communication and integrated payment system.
- Launched platform serving 100+ beta users, enabling smooth collaboration between translators and clients.

UniversityExamControlManagementSystem |*React.js, .NET, SQLServer*

- Developed backend logic and SQL Server integration for an exam system at South Valley University, serving 10,000+ students.
- Automated exam scheduling and reporting, reducing administrative workload by 65%.
- Collaborated with frontend developers to deliver APIs and seamless reporting features.

ChatFlow-Real-TimeChatApplication |*React.js,Node.js,Express.js,Socket.IO,MongoDB*

- Built a secure chat platform with JWT authentication, bcrypt password hashing, and protected API endpoints.
- Implemented private/group chats, typing indicators, online status, and real-time notifcations with WebSockets.
- Added media support (images via Cloudinary, voice messages), plus friend requests and group management.
- Designed responsive UI with React + Tailwind CSS/DaisyUI, supporting Dark/Light themes and searchable chat history.

Book4U-BookstoreMVCApplication |*C#,ASP.NETCoreMVC,EntityFramework,SQLServer,Bootstrap*

- Developed a bookstore app with user/admin roles, supporting browsing, search, cart, and order placement.
- Built an admin dashboard with CRUD features for managing books, genres, stock, and orders.
- Designed a responsive interface with Bootstrap 5 for seamless user experience.

Skinet-E-CommerceBackendPlatform |*ASP.NETCore,EntityFramework,SQLServer,Redis,Docker*

- Designed a clean-architecture backend with separated API, Core, and Infrastructure layers.
- Implemented catalog search/fltering, Stripe-powered payments, and RESTful APIs for scalability.
- Integrated Redis for shopping cart functionality and Docker for containerized deployment.
- Streamlined environment setup via Docker Compose for consistent dev/prod deployments.

LEADERSHIP&MENTORINGEXPERIENCE

TechnicalMentor&Instructor-SouthValleyUniversity

- Mentor-C#,LINQ,EntityFramework,DesktopApps,MVC,andAPI – Provided mentorship as part of the "Support" community, improving students' project outcomes by 40% and overall course performance by 35%.
- Assisted students with tasks and projects in C#, LINQ, and EF, boosting coding eficiency by 40% and reducing project completion time by 30%.
- Guided MVC and API application development, enhancing application performance by 35% and project quality by 25%.
- Conducted one-on-one and group code reviews, improving code quality by 30% and adherence to best practices by 25%.

ACHIEVEMENTS&RECOGNITION

- Led graduation and training projects with teams of 7-8 members, delivering a social media platform and other full-stack solutions, demonstrating leadership and project management skills.
- Mentored 50+ students in sofware development with a 90%+ completion rate across various technical domains.
