Page 1: Gift List Layout and Display

Task Title: Design the Gift List with Item Names and Individual Details

Description:

- Create the basic layout for the gift list where users can add and view gift ideas for friends and family.

Details:

1. **Background**: Set the background color to **#F7F7F7** (light gray) for a neutral and soft look.
2. **Gift List Display**:
   - Display each gift idea with a clear, organized layout.
   - Use **#4B0082** (indigo) for the **item names** to make them stand out clearly.
   - Ensure the layout includes space for each item's name, description, and the person it's intended for.
3. **Typography**:
   - Use **Arial Bold**, size **18px** for item names to make them prominent and easy to read.

Deliverables:

- HTML structure for the gift list, including sections for item names and additional details (such as description, recipient).
- Basic CSS for layout and font styling.

Budget: $5

Page 2: Reminder Function and Icons

Task Title: Add Reminder Icons for Special Occasions

Description:

- Implement a reminder system for important events like birthdays, with clear and noticeable reminder icons.

Details:

1. **Reminder Icons**:

- ○ Add **#FF4500** (red-orange) icons for events or birthdays to make them stand out.
  - ○ Ensure the icons are visually distinct and placed next to the relevant gift items.
2. **Reminder Function**:
   - ○ Add an option for users to set a reminder for specific dates like birthdays or holidays, with a field to input the date and event details.
   - ○ Ensure the reminder icon appears next to gifts that have upcoming events.

Deliverables:

- HTML for adding a date input and setting reminders for each gift.
- JavaScript for the reminder function, including logic for setting and displaying reminder icons based on the event date.
- CSS for styling the reminder icons with the red-orange color.

Budget: $5

Page 3: Mobile Responsiveness and Final Adjustments

Task Title: Ensure Mobile Responsiveness and Final UI Adjustments

Description:

- Make the gift list interface fully responsive, ensuring that it is easy to view and interact with on various mobile devices.

Details:

1. **Mobile Responsiveness**:
   - ○ Use **CSS media queries** to ensure the gift list and reminder icons resize and rearrange appropriately on mobile screens, ensuring the interface is user-friendly and legible.
2. **UI Enhancements**:
   - ○ Finalize the visual design of the gift list, ensuring it is cheerful and easy to navigate, with a consistent design for buttons and input fields.

Deliverables:

- CSS for mobile responsiveness to adjust the layout for smaller screen sizes.
- Final styling and visual adjustments to ensure that the gift list is clear and inviting on mobile.

Budget: $5
